## Desktop Keyboard & Mouse Combo

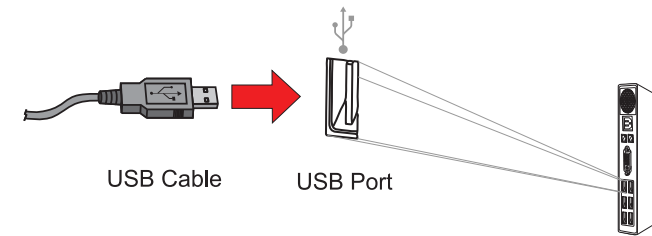

①

### INSTALLATION

1. Make sure your computer is OFF before installing the keyboard and mouse.

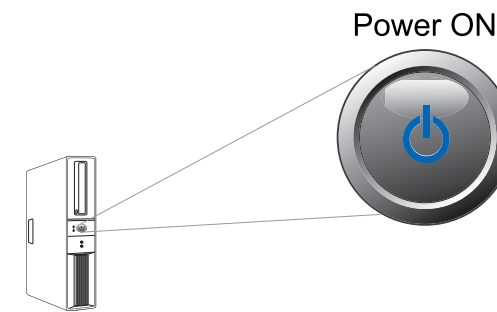

2. Plug the USB cable of your keyboard into the USB port of your computer. Then do the same procedure with your mouse.

②

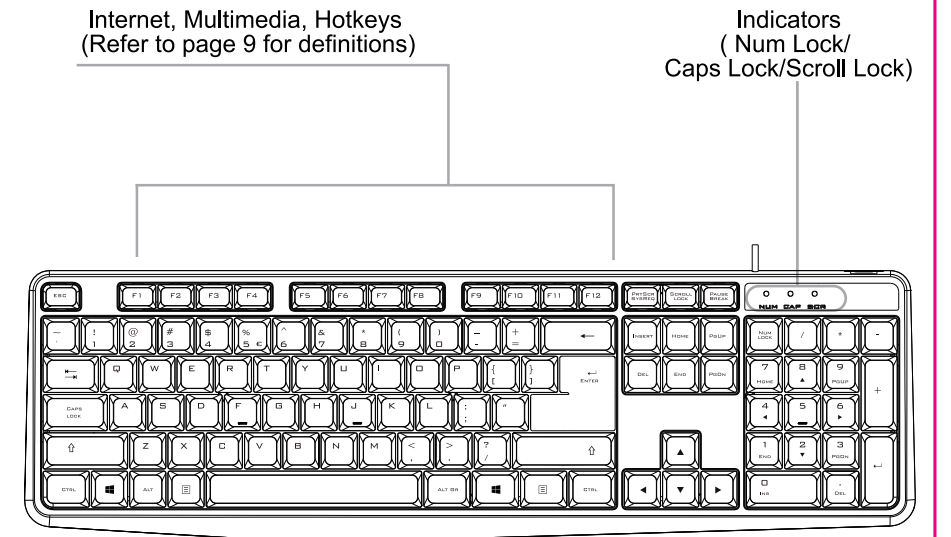

3. Turn ON your computer and the keyboard and mouse will automatically be recognized by your computer since they are plug-n-play.

Windows will detect the driver for each device automatically. No driver required.

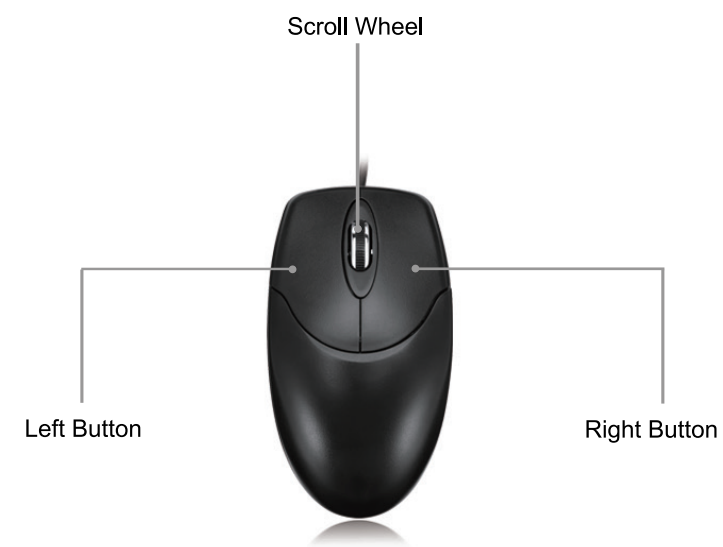

③
